About us

AKSAM is a company which was established in 1993 and it has since continued to be an entirely polish-owned family company. Its story began with the production of “Beskidzkie Pretzel sticks”, a brand which continues to strengthen company’s position in Poland every year. Our portfolio mainly includes pretzels and pretzel sticks, crackers, crisps, coated peanuts and popcorn.

AKSAM is not only a salty snack producer. In 2014 the company decided to introduce a new brand – Soleo sweet – a traditional taste of our pretzel sticks and pretzels in a sweet version. All products have simple and elegant packaging.

Export

In 2007 we started to build our position in foreign markets under the brand name of “Soleo”. We build the brand recognition by participating in some International Trade Fairs such as: the ISM and ANUGA in Germany, the SIAL in France.

Nowadays, AKSAM is recording a steady growth in exports to foreign markets concerning products under private labels, over 1500 tons of snacks monthly. Every year, several substantial increases in the foreign markets can be noted: mainly in Germany, Eastern Europe, the United Kingdom, Ireland, the USA and South Africa. Although the development continues we do not intend to rest on the laurels. Currently, we are working on expansion of our cooperation with customers and suppliers in new countries.

Cooperation with distribution chains:

We work with chain clients ranging from the smallest ones and finishing with the largest. We decided to expose the sales channels such as:
